BUCKS COUNTY, PA GARAGE DOOR SEARCH REPORT

Who shows up on Google when homeowners search for a garage door company, town by town.

1,880
searches a month

29 of 36
top website spots open to any contractor

23 of 33
companies on page one

Pulled November 12, 2026 · Garage Door Galaxy, a Coastal Marketing Strategies company

ABOUT 1,900 BUCKS COUNTY HOMEOWNERS SEARCH FOR A GARAGE DOOR COMPANY EVERY MONTH. THE FIRST PAGE IS OPEN TO THE COMPANY THAT EARNS IT.

We ran the searches homeowners actually type, in the towns they live in, and recorded who shows up. In 29 of the 36 top-3 website spots we checked, the listing is a directory, a social post or a lead-gen site, not a garage door company's own site. Those spots are open to any contractor who earns them.

1,880

searches a month for garage door work in Bucks County

1,590 "near me" and general searches (county-wide) + 290 that name a town. Google Ads data, Nov 2026.

$25,980

a month in modeled value if one company held the #1 spot on all of them

Modeled, not measured. Math is shown in "What it's worth" below.

$34–$55

what advertisers pay per click on these searches

Doylestown $34, Newtown $43, Bensalem $45, Quakertown $55, Levittown $55 (Google Ads average CPC).

23 of 33

companies we found appeared on page one of at least one search

14 of the 24 companies with 20+ reviews appeared. The other 9 are companies seen only because they ranked. 13 searches checked.

WHO RANKS WHERE

EVERY COMPANY WE FOUND, IN EVERY TOWN WE CHECKED

Each row is a company: all 24 with 20 or more Google reviews, plus every company that showed up in a map pack or the top 10 websites. Each column is a town we searched (repair and installation combined), plus a "near me" search from Doylestown. Numbers are the best position the company held.

Companies are sorted by Google reviews. Review count alone doesn't decide who shows up: see "What the first page has in common."

What this means: the map pack and the website results are two separate contests, and a company can win one without the other. If your row shows circles, that is the opening: a page for your town and a Google listing that matches it.

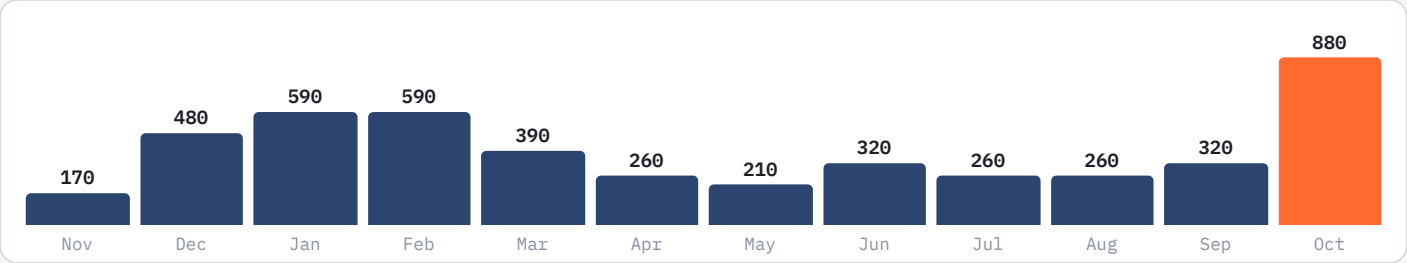

WHAT HOMEOWNERS SEE

SEARCH "GARAGE DOOR REPAIR NEAR ME" IN DOYLESTOWN AND YOU GET THIS

Live Google results for the exact searches, pulled November 12, 2026. Paid listings come first, then the map pack of local companies. The organic results under them are where most website visits happen.

> **What this means:** local companies already earn many of the map listings. The website results under them are where a homeowner reads about a company and decides, and in most of these towns those spots belong to directories, social posts and referral sites.

WHY THOSE PAGES WIN

WHAT THE FIRST PAGE HAS IN COMMON

PAGES WITH THE TOWN IN THE WEB ADDRESS

9 different websites with a Bucks town name in their web address showed up across the 12 searches, in 14 listings, in 5 of the 6 towns. Most look like referral sites rather than garage door companies.

REVIEWS HELP, BUT THEY DON'T DECIDE IT

Master Garage Door (46 reviews) holds the #1 map spot in both Quakertown searches, ahead of Monarch Door Company (759 reviews), which holds the top website spots. Fast Local Garage Door (320 reviews) did not appear on page one in any search we ran.

MAPS AND WEBSITES ARE SEPARATE WINS

Platinum Garage Door Services (26 reviews) is in the map pack on 4 searches and no website of theirs showed up. Russ Whelan Doors (3 reviews) holds the #1 website spot in Bensalem on both searches and is not in the map pack.

Observations come from the 12 live town searches plus the "near me" search. They show what ranks, not why Google ranks it.

Keywords ranked and estimated visits are nationwide organic figures for the whole website (DataForSEO estimates), not Bucks County traffic. Franchise sites such as ProLift and A1 carry a whole national network, so their numbers are far larger. Map spots and Web top-10 are counts out of 13 searches. "Not in category scan" means the company was seen in search results but wasn't in the county's Google Maps category listing.

WHAT IT'S WORTH

THE MONEY IN THESE SEARCHES

One scenario, with the math in plain view. Not a prediction for any one company.

SEARCHES	PER MONTH	MODELED VALUE IF A COMPANY HELD THE #1 SPOT
Searches that name a town	290	about $2,930
"Near me" and general searches	1,590	about $23,050
Total	**1,880**	**about $25,980**

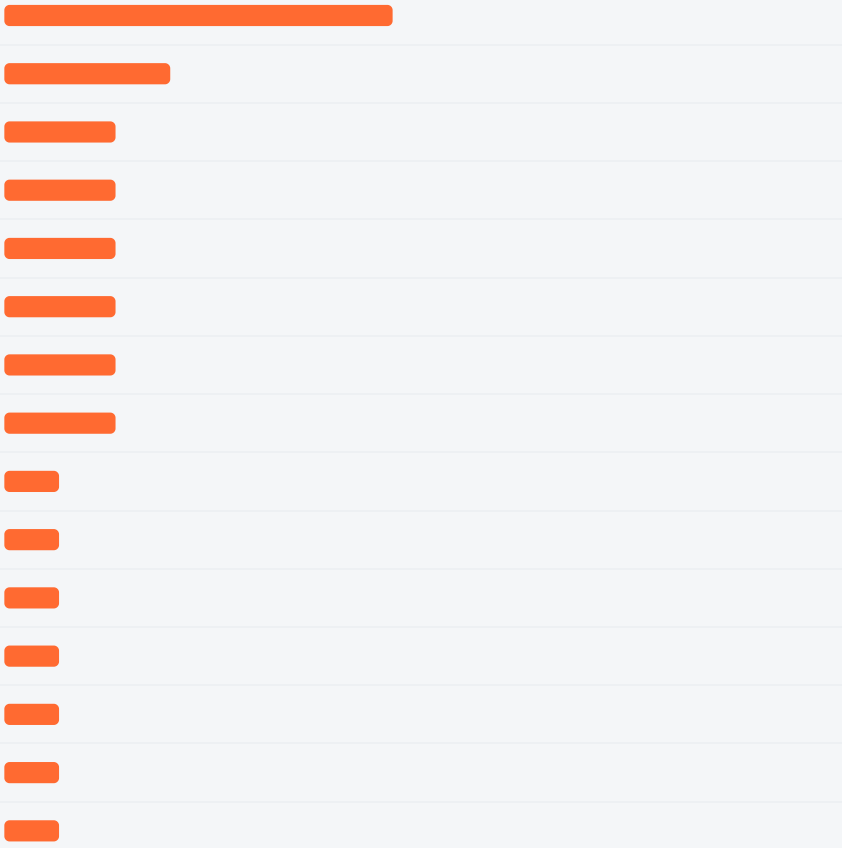

```
searches × 28% click share of the #1 result × 10% repair booking rate (8% installs) × $275 per repair ($1,900 per install)
```

> **Put simply:** one extra door installation a month is about $1,900. That is the size of the prize for each job a company wins from these searches.

WHAT TO DO WITH THIS

FIVE THINGS THAT DECIDE WHETHER YOUR SITE GETS THESE CLICKS

1. **A page for each town you serve** with the town in the title and the page text. Not one homepage for the whole county.
2. **Repair and installation on separate pages** for each of those towns.
3. **Your Google listing matching your site:** same business name, phone number and categories on both.
4. **A site that loads fast on a phone.**
5. **Reviews from this year,** not only older ones.

These five are standard local-SEO practice, not findings from the data above.

HOW WE DID THIS

Compiled once for Bucks County from public data and sent to garage door businesses in the county. It is not personalized. Garage Door Galaxy is the national garage door installer directory, run by Coastal Marketing Strategies, which also operates Garage Door SEO Experts. Sources: Google Ads search volume and average CPC (county geo for the general searches; Pennsylvania geo for the town searches so same-named towns in other states are excluded); live Google results (top 10) for 12 searches in the 6 towns with the most searches, plus one "near me" search from Doylestown; Google Maps business listings for the county's towns; nationwide organic keyword and traffic estimates from DataForSEO for each company website. Result types were classified by us from the domain, title and page address: directories are Yelp, Angi, MapQuest and similar; lead-gen sites are sites with a town in the name that aren't in the Google Maps business list. Businesses with no public address are shown as such and not counted as verified in-county; one out-of-country map result was excluded. Where a company has no website in its Google listing and none appeared in results, the scorecard says "No website found." Google doesn't report phrases below about 10 searches a month, so those are left out. Volumes are Google's rounded figures. Money is modeled from the assumptions shown above ($275 per repair and $1,900 per install are illustrative, not measured). Pull date: November 12, 2026.
